## Independent Auditors' Report

To the Board of Directors  
University of South Carolina Educational Foundation  
Columbia, South Carolina

### **Opinion**

We have audited the financial statements of the University of South Carolina Educational Foundation (the "Foundation"), a not-for-profit component unit of the University of South Carolina, which comprise the statements of financial position as of June 30, 2022 and 2021, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of June 30, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

# FORVIS

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Notes to Financial Statements

### 1. Organization and Summary of Significant Accounting Policies

#### ***Description of Organization***

The University of South Carolina Educational Foundation (the "Foundation") is a South Carolina eleemosynary corporation operating for the benefit and support of the University of South Carolina (the "University"). Its objectives include the establishment and implementation of long-range fundraising programs to assist in the expansion and improvement of the educational functions of the University. Because the funds held by the Foundation can only be used by, or for the benefit of the University, the Foundation is considered a component unit of the University.

#### ***Basis of accounting***

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

#### ***Use of estimates***

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### ***Concentrations of credit and market risk***

Financial instruments that potentially expose the Foundation to concentrations of credit and market risk consist primarily of cash equivalents and investments. Cash equivalents are maintained at high-quality financial institutions. The Foundation has not experienced any losses on its cash equivalents. Management monitors the risk of exposure to loss through monitoring the performance of the financial institutions through publicly available rating agencies.

Management believes that the Foundation's investments do not represent significant concentrations of market risk because the Foundation's investment portfolio is adequately diversified among issuers and management believes that the Foundation has the ability to hold its investment portfolio during periods of temporary market declines.

#### ***Cash and cash equivalents***

The Foundation considers all cash and highly liquid investments with original maturity of three months or less to be cash equivalents. The Foundation's deposits in each bank are insured by the Federal Deposit Insurance Corporation ("FDIC"). It is management's opinion that the Foundation is not exposed to any significant credit risk related to cash.

#### ***Collateral assignment split dollar arrangement***

Collateral assignment split dollar arrangement consists of amounts loaned for the purchase of split-dollar life insurance policies which are owned and controlled by the participants in the program. The receivable amount is limited to the lessor of the original loan plus interest accrued at the applicable federal rate or the cash surrender value of the life insurance policies.

***Accounts receivable***

Management considers all accounts receivable balances to be fully collectible; therefore, no allowance for uncollectible accounts is included on the statements of financial position.

***Contributions receivable***

Contributions are required to be recognized when the donor makes a promise to give that, in substance, is unconditional. All contributions are available for unrestricted use unless specifically restricted by the donor. Contributions that are restricted by the donor are reported as increases in net assets with donor restrictions depending on the nature of the restrictions. Unconditional promises to give (pledges) are stated net of an allowance for doubtful accounts. Pledges are periodically evaluated for collectability based on management's assessment of the collectability of each pledge. Unconditional promises to give due in subsequent years are reported at the present value of their net realizable value, using discounted rates applicable to the years in which the promises are to be received.

***Investments***

Investments consist of money market funds, marketable equity and debt securities and alternative investments (including hedge funds and private equity partnerships), which are carried at fair value. Cash and money market funds held in the investment portfolio are a part of the diversification strategies established by the investment policy. Management determines the portion of the investment portfolio to be held in money market funds based on projected cash needs by beneficiaries. Investment income or loss (including gains and losses on investments, interest, and dividends) is included on the statements of activities as increases or decreases in net assets without donor restrictions unless the income or loss is specifically restricted by donor or law. Securities or other investments donated are recorded at their market value at the date of the gift. Donated life insurance policies are carried at their current respective cash surrender values. Property held for sale is measured at the lower of cost or market.

***Assets held in trust***

Assets held in trust consist of split-interest agreements that name the Foundation as a beneficiary.

By Others

Trust agreements under which the Foundation has no control over the investment of assets are valued using multiple methods. The Charitable Lead Annuity Trusts ("CLAT") held by others are valued using the present value of future cash flows. The Charitable Remainder Uni-Trusts ("CRUT") held by others (majority of held by others) are valued at the fair value of the underlying investments held as reported by the custodians. The discount rate used to determine the present value is determined at the date of the gift and remains constant throughout the life of the trust. Changes in the value of the assets are included on the statements of activities as increases and decreases to contributions received in net assets with donor restrictions. Distributions to the Foundation during the life of the agreement are recognized as contributions received in the appropriate net asset classification in accordance with the donor's wishes.

**University of South Carolina Educational Foundation**  
**Notes to Financial Statements**

---

***Fixed assets***

Fixed asset purchases are stated at cost. Donated fixed assets are recorded at fair market value on the date of the gift. Leasehold improvements consist of enhancements paid for by a tenant and are amortized over the life of the lease. The Foundation's policy is to capitalize fixed assets in excess of \$5,000 and the estimated useful life exceeds three years. Depreciation is provided over the estimated useful life computed on the straight-line method.

The Foundation reviews the carrying values of its long-lived assets for possible impairment whenever events or changes in circumstances indicate the carrying amount of the assets may not be recoverable. There were no impairments of fixed assets as of June 30, 2022 and 2021.

***Funds held for others***

Funds held for others consist of funds held for investment purposes from affiliated entities, primarily other Foundations within the University system. The Foundation had \$10,612,372 and \$12,429,630 as of June 30, 2022 and 2021, respectively, of funds held for affiliated entities.

***Annuity obligations***

The amounts reported as annuity obligations represent amounts due to donors and others under various split-interest agreements and trust agreements. The related assets are reported together with other assets (investments or assets held in trust) of the Foundation, as there is no legal requirement to maintain these separately. Discount rates and actuarial assumptions vary by type of agreement.

Other information relating to these split-interest agreements follow:

	<u>2022</u>	<u>2021</u>
Actuarial gain	\$ 214,356	\$ 453,726
Payments made	\$ (131,890)	\$ (249,270)

The Foundation uses a reinsurance policy to provide amounts to be paid in the future for some of its annuity obligations. The amounts to be provided under the reinsurance agreement are netted against annuity obligations on the statements of financial position and are valued at \$239,452 and \$277,471 as of June 30, 2022 and 2021, respectively.

***Income taxes***

The Foundation has been granted exemption from income taxes under Section 501(c)(3) of the Internal Revenue code and accordingly, no provision for income tax is recorded in the accompanying financial statements. The Foundation has determined that it does not have any unrecognized tax benefits or obligations as of June 30, 2022.

***Net assets***

Net assets are reported as with or without donor restrictions as follows:

*Without donor restrictions*

The Foundation reports that part of its net assets that is not restricted by donor-imposed stipulations as net assets without donor restrictions. The Foundation's governing board has internally earmarked portions of its net assets without donor restrictions as designated for quasi endowments (board designated). The principal of such funds is invested to provide income for operations.

With donor restrictions

The Foundation reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when the stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported on the statements of activities as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same reporting period are reported as support without restrictions. All contributions receivable are considered net assets with donor restrictions until received by the Foundation. Once the funds have been received, they are then reclassified if necessary.

Net assets with donor restrictions held in perpetuity consist of that part of the Foundation's net assets resulting from contributions and other inflows of assets whose use by the Foundation is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise be removed by actions of the Foundation. Presently, these net assets represent the endowed funds held in perpetuity established by donors for the benefit of the Foundation's programs. Gifts and contributions designated by such trust agreements are permanently invested, with the income derived therefrom being accumulated or expended in accordance with the donor-imposed restrictions.

***Revenue, gains, and other support, and expenses and losses***

Contributions received and unconditional promises to give are measured at their fair values and are reported as an increase in net assets with and without donor restrictions.

A contribution is deemed to have been received when the cash or other assets including securities, land, buildings, use of facilities, materials and supplies, intangible assets, services or unconditional promise to give such items in the future is received. An unconditional promise to give is a promise which is not dependent on the occurrence of a specified future and uncertain event to bind the promisor.

The Foundation reports gifts of goods and equipment as support without restrictions unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as with donor restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

***Donated services, goods, and facilities***

A substantial number of volunteers have donated an undetermined number of hours to the Foundation's program services and fund-raising campaigns during the years; however, these donated services are not reflected in the financial statements since the services do not require specialized skills. Donated professional services (which include accounting and legal services) would be reflected on the statement of activities at their fair market value. No donated professional services were received during 2022 or 2021.

Materials and other assets received as donations are recorded and reflected in the accompanying financial statements at their fair values at the date of receipt.

***Expense allocation***

The costs of providing various programs and activities have been summarized on a functional basis on the statements of activities and functional expenses. Management uses a direct method for recording expenses by function.

***Recently issued accounting pronouncements***

In February 2016, the Financial Accounting Standards Board (“FASB”) issued ASU 2016-02, “Leases”. Under the new standard, lessees will need to recognize a right-of-use asset and a lease liability for virtually all their leases (other than leases that meet the definition of a short-term lease). The liability will be equal to the present value of lease payments. For statement of activities purposes, the FASB continued the dual model, requiring leases to be classified as either operating or finance. Operating leases will result in straight-line expense (similar to current operating leases) while finance leases will result in a front-loaded expense pattern (similar to current capital leases). Classification will be based on criteria that are largely similar to those applied to current lease accounting. Extensive quantitative and qualitative disclosures will be required to provide greater insight into the extent of revenue and expense recognized and expected to be recognized from existing contracts. The new standard will be effective for the Foundation July 1, 2022, and the Foundation is currently evaluating the effect this ASU may have on its financial statements.

**2. Fair Value of Financial Instruments**

The following methods and assumptions were used to estimate the fair value of each classification within the financial statements:

- Contributions receivable – The fair value of promises to give that are due in more than one year is estimated by discounting the estimated future cash flows using the Foundation’s earnings rate.
- Investments – The fair value of debt and equity security investments are estimated based on quoted market prices when available. For other investments for which there are no quoted market prices, a reasonable estimate of fair value was made based upon readily available information. Hedge funds and private equity funds are valued at fair market value or net asset value, as determined by the managers of the private equity funds or hedge funds as reported to them by the general partner of the underlying funds or partnerships.
- Accounts and notes receivable – Fair value approximates carrying value due to the unknown maturity of these items.
- Assets held in trust – The fair value is estimated using multiple methods. The CLAT’s held by others are valued using the present value of future cash flows. The CRUT’s held by others (majority of held by others) are valued at the fair value of the investments held as reported by the custodian.
- Annuity obligations – These liabilities are carried at actuarially determined present value, which approximate fair value.

When quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases could not be realized in immediate settlement of the instrument.

**University of South Carolina Educational Foundation**  
**Notes to Financial Statements**

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Foundation's assets and liabilities accounted for at fair value on a recurring basis as of June 30, 2022 and 2021:

The investments reported as level 3 methods and measured at fair value consist of partnerships for which the ownership terms and conditions restrict the marketability of the investments resulting in the valuation method previously described.

**University of South Carolina Educational Foundation**  
**Notes to Financial Statements**

The following describes the restrictions to assist in the assessment of the investment holdings:

Hedge Funds – The Foundation holds ownership shares in several hedge funds with investment strategies including fund to fund long/short equity managers. Management believes that the investment strategies employed and availability of other Foundation resources allow the Foundation to be unaffected by the liquidity restrictions.

Private Equity Partnerships – The Foundation holds ownership positions in four partnerships with investment strategies of investing in private equity (distressed companies) and private energy funds. The Foundation cannot redeem its investment in these funds until the final liquidation of the partnerships.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient or level 3 methods for partnerships and hedge funds as of June 30, 2022 and 2021:

**7. Notes Payable**

Notes payable consist of the following at June 30:

	<u>2022</u>	<u>2021</u>
An unsecured agreement with the University of South Carolina Alumni Association (the "Association") to invest up to \$2,450,000 at guaranteed rates up to 1% until the Association requests the funds.	\$ 1,370,992	\$ 1,370,782
An unsecured revolving line of credit with a bank in the amount of \$20,000,000 with a floating interest rate equal to the 30-day LIBOR rate (1.79% as of June 30, 2022) plus 1.2%. Interest payments due monthly with the entire outstanding principal balance, along with any outstanding accrued interest is due on June 25, 2023.	<u>5,438,019</u>	<u>6,388,019</u>
	<u>\$ 6,809,011</u>	<u>\$ 7,758,801</u>

Maturities of notes payable are as follows for the years ending June 30:

2023	<u>\$ 6,809,011</u>
------	---------------------

As a result of these agreements, the Foundation recognized interest expense of \$112,631 and \$171,151 for the years ended June 30, 2022 and 2021, respectively.

**8. Debt Guaranties/Contingencies/Commitments**

The Foundation has partially guaranteed under a guaranty agreement the repayment of \$8,500,000 on a \$15,000,000 line of credit taken out by the USC Development Foundation, a supporting organization of the University of South Carolina. As of June 30, 2022, the outstanding principal balance was \$3,500,000.

The Foundation has guaranteed under a guaranty agreement the repayment of seventy-five percent of a \$30,000,000 line of credit taken out by the USC Development Foundation. As of June 30, 2022, the outstanding principal balance was \$11,739,847.

The Foundation has guaranteed under a guaranty agreement the repayment of seventy-five percent of a \$15,000,000 line of credit taken out by the USC Development Foundation. As of June 30, 2022, the outstanding principal balance was \$3,495,071.

As of June 30, 2022, it is management's opinion that the Foundation has no liability under these guaranty agreements as the USC Development Foundation is current on payments as it relates to the lines of credit and the terms of the agreements are being followed.

**9. Board Designated Funds**

Quasi-endowments have been designated totaling \$10,728,165 and \$10,735,230 at June 30, 2022 and 2021, respectively. Quasi-endowments are established from time to time in an effort to manage the use of funds received without donor restrictions. The quasi-endowments may be created to fund an established program or project of one of the Colleges or Departments. Additionally, quasi-endowments may be established to provide funding for new and/or changing initiatives.

## 10. Net Assets With Donor Restrictions

At June 30, 2022 and 2021, net assets with donor restrictions are available for the following specific program services:

	<u>2022</u>	<u>2021</u>
Contributions receivable	\$ 34,062,807	\$ 40,786,297
Awaiting full endowment level and temporary investment earnings	48,714,993	143,400,967
Purpose restrictions	43,935,482	41,228,887
Annuity and life trust agreements	10,093,846	9,154,587
	<u>\$ 136,807,128</u>	<u>\$ 234,570,738</u>

Net assets released from donor restrictions by incurring expenses, satisfying the restricted purposes, or by occurrence of other events specified by donors were \$18,224,751 and \$13,404,438 for the years ended June 30, 2022 and 2021, respectively.

Net assets with donor restrictions held in perpetuity of \$341,506,878 and \$323,956,067 at June 30, 2022 and 2021, respectively, are restricted to investment in perpetuity, the income from which is expendable to support the Foundation's objectives.

## 11. Endowments

The Foundation's endowment consists of approximately 2,600 individual funds established for various purposes. It includes donor-restricted contributions and board-restricted endowments as required by GAAP. Net assets associated with the endowment are classified and reported based on the existence or absence of donor-imposed restrictions.

### *Interpretation of relevant law*

The Board of Directors of the Foundation has interpreted the South Carolina Uniform Prudent Management of Institutional Funds Act ("SCUPMIFA") as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as net assets with restrictions held in perpetuity (a) the original value of gifts donated to the endowment held in perpetuity, (b) the original value of subsequent gifts to the endowment held in perpetuity, and (c) accumulations to the endowment held in perpetuity made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not held in perpetuity is classified as with donor restricted net assets with a time or donor restriction until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by SCUPMIFA. In accordance with SCUPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund.
- The purposes of the Foundation and the donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Foundation.
- The investment policies of the Foundation.

***Funds with deficiencies***

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or SCUPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature that are reported in net assets with donor restrictions were \$3,099,589 and \$167,604 as of June 30, 2022 and 2021, respectively. These deficiencies resulted from unfavorable market fluctuations and continued appropriation for certain programs that were previously approved and were critical initiatives deemed prudent by the Board of Directors.

***Return objectives and risk parameters***

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Foundation must hold in perpetuity or for donor-specified periods. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce investment returns at least equal to inflation as measured by the Consumer Price Index plus a 4.25% pay out and 1.25% for associated fees while assuming a moderate level of investment risk.

***Strategies employed for achieving objectives***

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized gains and losses) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

***Spending policy and how the investment objectives relate to spending policy***

The Foundation has a policy of appropriating for distribution each year 4.25% of its endowment fund's average fair value over the prior 5 quarters through September 30 proceeding the fiscal year in which the distribution is planned. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the Foundation expects the current spending policy to allow its endowment to grow at an average of 7 to 8 percent annually. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

**12. Liquidity and Availability**

The Foundation's management structures its financial assets to be available as its general expenditures, liabilities and other obligations come due. Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position date, comprise the following as of June 30:
